

MODULARITY

A true swiss-army knife, useful in all activities, the Open is the cross-over of the seas. The versatility of this rigid-hulled inflatable has been thought out in every detail. Its conception allows it to be easily transportable, even when the tubes are inflated, and is adoptable to your activities: trips, waterskiing, wakeboard, sun-bathing, etc. On the deck, transform your boat with seats or free the space for fishing.

PERFORMANCE

With excellent stability at sea thanks to its V-hull and its optimized deck plan for better movement onboard, the Open offers exceptional cruising. It is the perfect balance between performance and comfort. You can enjoy any day at sea with family and friends whatever your passion may be.

STORAGE

The optimization of storage areas on the deck, accessible through the movable console, offers a more-than-generous space for all your gear (skis, fishing, diving, security). Choose according to your taste the activity you want to do.

Versions

Z14824

OPEN 7 Version Neo black / light grey
