

The Seacruiser 6000 is aimed at the fisherman that wants to do a variety of fishing, from freshwater rivers and lakes, to the wide open grounds offshore and everything in between. It's the perfect one size fits all boat. Capable of fishing the shelf and then getting you home when the weather turns, the 6000 is built to handle the unpredictable Southern Ocean and has 6mm bottom and 4mm side plate thickness and large internal freeboard. With standard features including front cast deck, centre or side console and a large fuel tank capacity, your options are endless. The layout can be customised to suit individual preferences.

## SEACRUISER 6000CC/SC
