

Vessel Specification – 2010 Sunseeker 84 Predator ‘Wolf’

Description

Broker comment – *“You’ll be hard pressed to find a boat in this category with comparable condition, styling, options and improvements, on or off the market.”*

Wolf is one of the finest examples of a vessel this age and she is certainly an outstanding example of the Sunseeker 84 Predator. This boat boasts a well-balanced sporty exterior, a spacious interior and a generally open and airy functional layout. Inside there are 4 generous cabins for 8 guests all with beautifully appointed ensuite bathrooms. There is a crew cabin off the aft galley which has its own separate staircase off the aft salon. The main deck has a stunning interior that will satisfy most and the configuration really connects the indoors with the outdoors, especially when the sunroof is opened.

Along with its huge list, this specific 84 is powered by the larger MTU V16 with a combined 4,868 HP, offering a cruise speed of 28 to 30 knots and a top speed of 40 knots. Complementing this performance are the TRAC zero speed stabilisers which assist underway and at rest.

This is an Australian delivered Sunseeker that was delivered with all the boxes ticked. An inspection is a must and will truly impress.
