*Hi Tony, Again thanks for all the help and I am just stoked with the result  
The difference and the end product is second to none ...You guys took all the stress out of what could have been a headache...the service and helpful staff put me at ease , that I was dealing with a company with integrity and standards which is a rarity these days. I would have no hesitation in recommending Hi Tech for any boating issues to anyone  
...10 out of 10*
